Introduction to UML 2

Type a name for the action. Choose the stereotype you want from the drop-down list. If a stereotype you want to use isn't listed, you can add a new stereotype or edit an existing one by clicking Stereotypes on the UML menu.

UML action represents a single atomic step within activity.

With its changes and extensions, UML 2.0 supports the modeling of business processes much better. The increased size of UML 2.0's vocabulary shows that it's no longer sufficient to define only certain elements of the language, but also necessary to define the use of UML in specialized fields, such as, system integration or data warehousing.

UML 2 Activity and Action Models - The Journal of Object ...

Explicitly modeled actions as part of activities are new in UML 2.0, and replace action state, call state, and subactivity state in UML 1.5. Actions are notated as round-cornered rectangles. Name or description of the action is placed inside of the rectangle.
