China Mieville's Un Lun Dun belongs in the second category. I once was a teenage girl, and I live in London. Perhaps this is one of the many books best enjoyed as a teenager but there are many parts that appeal to the adult listener. His Un Lun Dun is comprehensible in a way that the real London isn't.

Review: Un Lun Dun by China Mi é ville | Books | The Guardian
Mieville wants readers to have the joy of surprise, so I'm keeping quite about the details. But I guarantee you will never think of giraffes the same way ever again. There are also marvelous characters and companions, all vivid and memorable. Un Lun Dun subverts your typical fantasy formula.

Simultaneously a tribute to "chosen one", "quest for a magical object" and "through the looking glass" fantasy tropes and a subversion of them all, there's a lot to like about Un Lun Dun. Why it doesn't quite rate higher for me is that some of those twists, plus the names of places & people seemed a little too obvious and on the nose.
