Understanding and Interpreting Accounts - Sessions 1,2,3 and 4
Cash-basis accounting. In cash-basis accounting, companies record expenses in financial accounts when the cash is actually laid out, and they book revenue when they actually hold the cash in their hot little hands or, more likely, in a bank account. For example, if a painter completed a project on December 30, 2003, but doesn't get paid for it until the owner inspects it on January 10, 2004 ...
