states and regions of the contemporary world  
that can be your partner.

While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

## **Understanding Contemporary Africa (Understanding ...**

This book is a great introduction to contemporary Africa. It manages to quickly summarize historical underpinnings and cover a relatively wide array of current affairs. As with any compilation, some sections are better than others. Unfortunately April Gordon herself is on the low end of the contributors.
