Birds of North America Bird Identification Guide

Bird Academy Student Think Like a Bird: Understanding Bird Behavior. I am recently retired and have found this one of my best new projects so far! It also makes my daily walks in a nearby park more interesting as I notice the birds more and try to identify them. It makes me appreciate birds and nature even more!

Birds of Prey - North American Birds - Birds of North America

Many birds are brown, green or grey. These colours make a bird harder to be seen: they camouflage the bird. Brown is the most common colour. Brown birds include: sparrows, emus, thrushes, larks, eagles and falcons and the female birds of many species such as: wrens, ducks, blackbirds and peafowls.When a brown bird is in long grass or among tree trunks or rocks, it is camouflaged.

Behavior Changes to Watch out for in Cats

The Fish & Wildlife Department offers these tips for bird-friendly bird feeding: Keep cats inside. Domestic cats are the leading cause of bird death in North America, and feeders can make birds particularly easy prey. Place feeders closer than 4 feet or farther than 10 feet from a window. Being close to, or far from, a window reduces bird ...

Bald eagle - Wikipedia

Some cats have a stronger prey-drive and will act out aggressively towards toys, children, other pets, or even you. This aggressive behavior is a natural and often normal thing a prey-driven cat will have, if it does not have another outlet to hunt and catch.
