The user manual should be written for the audience -- those who will be purchasing your product or service and reading the user manual. An audience analysis will tell you who your main or target audience will be and will guide your writing. Talk to people who will use your device.

### Tips for writing user manuals

When writing a manual, you need to put on a “ user ’ s hat ” and think like a user. You should have a good understanding of your users so you can understand the information they need to know, their background, and their knowledge of the product. Once you think like a user, you can write content that the users need to know.
