Titman, Valuation: The Art and Science of Corporate ...

From a 'purist' perspective, some would argue that valuation is neither science nor art; it is its own subject entirely. However, from a general perspective, it may be argued that there are scientific elements to all art (e.g. music can be quantified and measured and transposed into written form), and therefore science and art can, and often are, interrelated.

College of Arts and Sciences | University of Colorado Boulder

Courses meeting the ideals and values requirement inquire into some specific sphere of human value (e.g. moral, religious, intellectual, aesthetic, environmental, etc.). In these courses students are encouraged to reflect upon fundamental ideals and values, their own and others, and the sources from which those value orientations derive.
