The views of the video using this code DO NOT COUNT even if I play the whole embedded video till the end! The views are incremented if watched directly on youtube, so it is not the "300 views problem". I have tried to add the enablejsapi option, but it doesn't work as well.

Embedded Systems - Springer

Evolvability is defined as the capacity of a system for adaptive evolution. Evolvability is the ability of a population of organisms to not merely generate genetic diversity, but to generate adaptive genetic diversity, and thereby evolve through natural selection.. In order for a biological organism to evolve by natural selection, there must be a certain minimum probability that new, heritable ...
