Python remote start installation guide

I am trying to install a viper 4806v two-way remote start/keyless entry in my automatic 2004 toyota camry LE 4cyl. I got the lock/unlock, horn, lights to work, and trunk pop to work. I can't seem to get the remote start to work. When I press the remote start button on the remote keypad, the car does not start and the headlights flash 7 times.
