Water 4.0 The Past

"Water 4.0" is a delightful, fascinating and ultimately very balanced treatment of humans and water: past, present, and future. David Sedlak has won many awards and recognition for his innovative and high quality teaching at Berkeley, and it shows through in the book.

Water, as Sedlak Vital
suggests, is the element
that holds a city together
and allows it to grow.
Although the road signs
that will lead us toward
Water 4.0 may be hard
to read now, Water 4.0
provides a useful map of
where we have
been—and of where we
need to go.
