Want to know how many colors contains a photo taken with your webcam (more colors mean higher image quality). Want to know the resolution of your web camera (high-quality webcams have high resolution and can provide HD video calls). Check the quality of your webcam compared to other webcams (for this you need to leave a review about your webcam).

### Iriun

A webcam with a high resolution is a must. The lower the resolution, the grainier the image looks on the screen. Most modern webcams support only high-definition video capture. Look for a video capture resolution of at least 720p or higher. A 1080p webcam is better, and these are becoming more common and more affordable.
