Project-Based Learning Definition - The Glossary of ...

With project based learning, the content is baked inside of a long-term project, a real-world problem students need to solve in a creative and authentic way. In the process of solving the problem, students also meet required standards, but this work is integrated into the project, not separate from it.

Introduction to Project Based Learning (PBL) Process

While project-based learning (PBL) also features projects, in PBL the focus is more on the process of learning and learner-peer-content interaction than the end-product itself. The learning process is also personalized in a progressive PBL environment by students asking important questions, and making changes to products and ideas based on individual and collective response to those questions.
