Race | Definition of Race by Merriam-Webster

The traditional definition of race and ethnicity is related to biological and sociological factors respectively. Race refers to a person's physical characteristics, such as bone structure and skin, hair, or eye color. Ethnicity, however, refers to cultural factors, including nationality, regional culture, ancestry, and

race | Definition, Ideologies, Constructions, & Facts ...

Stated simply, race is the word used to describe the physical characteristics of a person. These characteristics can include everything from skin color to eye color and facial structure to hair color. This term is physiological in nature and refers to distinct populations within the larger species.

Examples of Race and Ethnicity

A race is something that's much harder to pin down. Racial groups tend to be divided by similar physical characteristics like skin color, head shape, and so on. Unlike ethnicity, which is tied to a particular people or place, race is imprecise. And, to be frank, there isn't any real scientific
