### **Linguistic relativity - Wikipedia**

**• In linguistics, the Sapir-Whorf Hypothesis states that there are certain thoughts of an individual in one language that cannot be understood by those who live in another language. • The hypothesis states that the way people think is strongly affected by their native languages. • It is a controversial theory championed by linguist**

### **Sapir-Whorf Hypothesis**

**colors. The Sapir-Whorf hypothesis, as expressed in I, predicts that colors near the green- blue boundary will be subjectively pushed apart by English speakers precisely because English has the words green and blue, while Tarahumara speakers, lacking this lexical distinction, will show no comparable distortion.**

### **Sapir-Whorf hypothesis - definition of Sapir-Whorf ...**

**The history of empirical research on the Sapir-Whorf hypothesis is reviewed. A more sensitive test of the hypothesis is devised and a clear Whorfian effect is detected in the domain of color.**

### **Sapir-Whorf Hypothesis - Zimmer Web Pages**

**For another, if the Sapir-Whorf hypothesis were really true, second language learning and translation would be far harder than they are. However, because language is so pervasive—and because we must always make cognitive decisions while speaking—weaker versions of the hypothesis will continue to attract scientific attention.**

### **What Is the Sapir-Whorf Hypothesis? - Kay - 1984 ...**

**The linguists Edward Sapir and Benjamin Lee Whorf, a student of Sapir, worked extensively on Native American languages and cultures during the early decades of the twentieth century. They were extremely interested in why perceptions of what we might term universal phenomena, such as time and space, differed significantly between their ancestral Western European cultures and those in which they ...**

### **Ask A Linguist FAQ: The Sapir-Whorf Hypothesis**

**The Sapir-Whorf hypothesis, also known as the linguistic relativity hypothesis, refers to the proposal that the particular language one speaks influences the way one thinks about reality. Linguistic relativity stands in close relation to semiotic-level concerns with the general relation of language and thought, and to discourse-level concerns with how patterns of language use in cultural ...**

### **What Is The Sapir Whorf**

**The Sapir-Whorf hypothesis is the linguistic theory that the semantic structure of a language shapes or limits the ways in which a speaker forms conceptions of the world. It came about in 1929. The theory is named after the American anthropological linguist Edward Sapir (1884-1939) and his student Benjamin Whorf (1897-1941).**

**(PDF) What Is the Sapir-Whorf Hypothesis?**

**Sapir was Boas's student and Whorf, Sapir's. The following two passages are among the most frequently cited from Sapir and Whorf, respectively. In the first, Sapir expresses, in terms no less lucid for being poetic, the basic empirical finding of the Boasians on the formal completeness and intellectual adequacy of unwritten languages.**

**Analysis Of Sapir Whorf And Benjamin Lee Whorf - 1867 ...**

**It seems like a difficult topic, but as language users, we can all easily relate to the theory that lies behind Sapir-Whorf hypothesis. Sapir-Whorf hypothesis —a position of linguistic relativity—argues that language ‘is not merely a reproducing instrument for voicing ideas, but is itself a shaper of ideas, the programme and guide for the individual’s meaningful activity’.**

**Language and Thought | Linguistic Society of America**

**The SW hypothesis is a straw man argument fabricated to denigrate the work of Benjamin Whorf. Whorf himself produced an excellent volume of work of great breadth, and objected to that narrow minded label. Sapir had almost nothing to do with it. Wh...**

**What Is the Sapir-Whorf Hypothesis? - JSTOR**

**Die Sapir-Whorf-Hypothese ist eine Annahme aus der Linguistik, der zufolge die Sprache das Denken formt. Sie wurde postum aus Schriften von Benjamin Whorf abgeleitet, der sich auf seinen Lehrer Edward Sapir berief. Den Ausdruck „Sapir-Whorf-Hypothese“ führte 1954 Harry Hoijer ein. Die Hypothese versucht eine Antwort auf die Frage zu finden, ob und wie eine bestimmte Sprache mit ihren ...**

**The evidence for and against the Sapir-Whorf hypothesis Essay**

**The Sapir-Whorf Hypothesis can be divided into two basic components: Linguistic Determinism and Linguistic Relativity. The first part, linguistic determinism, refers to the concept that what is said, has only some effect on how concepts are recognized by the mind.**

**Definition and History of the Sapir-Whorf Hypothesis**

**De Sapir-Whorfhypothese (ook wel de hypothese van linguïstische relativiteit genoemd) stelt dat de specifieke taal die we spreken invloed heeft op de manier waarop we denken over de werkelijkheid. Zo zouden lichtblauw en donkerblauw door Nederlandstaligen als varianten van één kleur worden waargenomen, terwijl ze voor Russischtaligen, die voor lichtblauw een ander woord (голубой ...**

**What is the Sapir-Whorf hypothesis? - Blutner**

**The Sapir-Whorf hypothesis is the theory that an individual's thoughts and actions are determined by the language or languages that individual speaks. The strong version of the hypothesis states that all human thoughts and actions are bound by the restraints of language, and is generally less accepted than the weaker version, which says that language only somewhat shapes our thinking and behavior.**

**Sapir-Whorf-Hypothese - Wikipedia**

**The history of empirical research on the Sapir-Whorf hypothesis is reviewed. A more sensitive test of the hypothesis is devised and a clear Whorfian effect is detected in the domain of color. A specific mechanism is proposed to account for this effect and a second experiment, designed to block the hypothesized**

***Sapir-Whorfhypothese - Wikipedia***

***Background Naming. The term "Sapir-Whorf hypothesis" is considered a misnomer by linguists for several reasons: Edward Sapir and Benjamin Lee Whorf never co-authored any works, and never stated their ideas in terms of a hypothesis. The distinction between a weak and a strong version of this hypothesis is also a later invention; Sapir and Whorf never set up such a dichotomy, although often ...***
