...

I have a Model #776EG2 Norcold fridge. The back will get hot with both propane and 110 volt but there is no cooling in the freezer or the refridgerator. There is a green substance on the bottom below the coils. I have not tried the turning upside down treatment. Should I? Submitted: 7 years ago.

Home - Norcold

I have a Norcold 776 eg2 refrigerator and left the door open with the frig set to electric. After 5 days I realized what I had done and now the refrigerator will not cool when set to gas or electric. The frig will light when on gas and there is heat at the back of the frig but no cooling.
