Where You Are A Collection  
The original company with which you created the debt most likely assigned or sold the account to the collection agency after you missed several payments and it was unable to get you to pay. It's usually more cost-effective for companies to hire debt collectors than to continue to spend their own resources pursuing payment on delinquent accounts.

Shoebox Drop Off Locations  
In a collection, the internal components are always of the same data type, and are called elements. You access each element by its unique subscript. Lists and arrays are classic examples of collections. In a record, the internal components can be of different data types, and are called fields.

What Are Debt Collections and How Do They Affect You?  
Most of your collections should be dynamic, meaning that you tell Logos the type of books you want in the collection by establishing rules. When you purchase a book it is then automatically added to the collections where it meets the criteria you have established. But Logos also gives you the ability to add books as "exceptions", or you can create a totally static collection. For more on this, see A Rationale for Dynamic Collections.
