Barn owls die in great numbers at this time of year, many from starvation: in winter mice and voles are less active above ground, and therefore harder to catch. Inexperienced juveniles are at greatest risk, both of starvation and from traffic: 3,000 to 5,000 barn owls die annually on Britain 's roads from a population of only around 4,000 adult pairs (who produce around 12,000 young per year).
