Amazon.com: Customer reviews: White Space Is Not Your ...

White space (negative space) is the area between design elements. It's another tool for designers to design for the user experience (UX). Remember that white space is not necessarily white; it's just the name to indicate spaces where there are neither user interface (UI) elements nor specific content.

html - White-space not working - Stack Overflow

Even though we call it white space, it doesn't mean the actual space must be white. The blank space may be filled with any color as long as it is free of any elements like text or images.
