For more in depth info, with citations to detailed studies, I highly recommend the book "Why Stomach Acid Is Good For You: Natural Relief from Heartburn, Indigestion, Reflux and GERD" by Jonathan V. Wright, MD and Lane Lenard, PhD.

Why Stomach Acid Is Good For You by Jonathan V. Wright

Stomach acid also helps keep us healthy by disinfecting the stomach, killing bacteria and parasites. Most bacteria cannot survive in extremely acidic environments like the stomach. Thus, stomach acid helps to kill bacteria before it can colonize and cause illness, such as salmonella and E. coli.

Stomach Acid Is Good For You | Cabot Health

In most cases, symptoms of excess stomach acid can be attributed to diet. It can be helpful for people to keep a food journal, which enables them to pinpoint what food or foods are bothersome. Once certain culprits are identified, it is simply a matter of eliminating those foods from the diet to find relief.

Why Stomach Acid Is Good For You | By Liz McBride, RN + NTP

The calcium carbonate itself neutralizes the stomach acid while the elemental calcium may increase muscle tone and improve peristalsis (emptying the esophagus). In a Swedish study, the use of beta-carotene 25 mg daily for 6 months was associated not only with symptomatic improvement but with histologic improvement noted on biopsy.

Why Stomach Acid Is Good for You by Jonathan Wright and ...

The stomach has a protective mucous covering which prevents the beneficial stomach acid from eating away at the actual stomach lining, where the esophagus does not have such a protective coating. The authors thoroughly cover the mechanics of digestion in relation to the science and they also share some of their successful experiences in treating patients.
