Ch18 - Chapter 18 solution for Intermediate Accounting by ... - StuDocu

Agarwal, Driscoll, and Laibson (2006) estimate the refinancing cost during the 1990s at \$2,000 of mortgage value. Since interest rates are volatile, the option to delay refinancing is valuable. The spread must also cover the loss in option value caused by refinancing. Agarwal et al. (2006)

2006 - The Journal of Finance - Wiley Online Library

To finance I, the CEO can either use internal funds or raise external finance (debt or equity). We consider the choice among cash, risk-free debt, and equity. In this setting, equity is the only financing instrument for which the CEO's overestimation of future returns results in disagreement about the appropriate price. 4 4 The investment-cash flow sensitivity result replicates in any setting ...
