Frontfork 4357 / 4860 MX Multi Adjuster

-The 'top adjuster' which are the forks posted in the link above. These have compression adjusting in one leg and rebound in the other with the adjustment screws being on the top. From what I can find the min/max fluid level is 160mm-120mm. both 10wt and 7.5 wt is recommended (depending on the manual) across the board for the 4054 forks.

Fork Parts & Accessories Archives - Slavens Racing

The Xact Pro fork is the successors to the well-regarded "Cone Valve" fork. It retains the save Cone Valve technology, and is available in three basic variants: closed cartridge with coil springs, closed cartridge with air spring, and open cartridge with coil springs. The Cone Valve itself is nothing magical - it's simply a shimless mid-valve.
