A research paper recommender system would greatly help researchers to find the most desirable papers, Although this list suggests that there is a simple, linear process to writing such a paper, the actual process of writing a research paper

Write-Up | Research Methods Knowledge Base

Writing about the results of the experiment is no easier than the research itself. As surgery, writing a scientific paper is also an improvisation, but general principles should be learned and used in practice. The most effective style of learning basic skills to construct a research paper is the “trial and error” type.
