On the contrary, today's digital cameras can be excellent for infrared photography. You just have to remove the infrared light-blocking filter on their sensors, purchase a digital camera without such a filter, or use an infrared filter on the lens. Some digital cameras like the Sigma SD14 make it easy to remove the infrared light-

Amazon.com: Digital Cameras Made Easy Instructional ...

Most modern cameras will shoot video to one degree or another, but these are the ones we'd look at if you plan to shoot some video alongside your photos. We've chosen cameras that can take great photos and make it easy to get great looking video, rather than being the ones you'd choose as a committed videographer.
