Zoology - Brijlal Biyani Science College Amravati

Zoology refers to the study of animals - their behavior, physiology, classification, and distribution. Over time, my kids and I have learned a lot about a variety of different animals. I have also created printables that teach about basic zoology principals. On this page I have links to every animal-related activity and printable I have shared.

Zoology Apiculture Unit I Unit

Honeybees are indigenous to the Eurasian and African continents and were introduced to the Americas and Australia by European settlers. In India the genus Apis has the following species: the western honey bee, Apis mellifera, the eastern honey bee, Apis cerana indica, the rock bee, Apis dorsata and the small bush bee Apis florea. The Dwarf Honeybee or Bush Bee (Apis florea) This species is ...
