The Zoom R24 is a pretty complex machine but does come with a decent operation manual but this training video has already given me new information and I am just 30 minutes into it. I have had loads of fun with my R24 already and this video and David Wills is going to help me get even more out of it.

### **Zoom R24 - Sound on Sound**

Zoom R24 When Zoom launched the R16 multitracker last year it bridged the gap between the 'personal studio' hardware multitracker and computer-based recording. It did so by providing the capability to work as a USB audio interface and a controller surface for computer software, as well as fulfilling its role as a standalone 16-track recorder.

Effects can be applied during recording and mixdown, or can be used for playback only. In addition, the R24's USB port allows it to act as an 8-input/2-output interface for DAWs such as the Cubase LE. You can even synchronize two R24s (or an R24 and a Zoom R16) via USB for 48 (or 40) tracks of playback and 16 tracks of simultaneous recording.
